Human by nature

ALBERT VIEILLE

We all have a story to tell, the one we write through the choices we make. As a company, we want our story to be part of a brighter tomorrow where our decisions have helped shape a future for generations to come and protect our beloved planet.

Be Natural

For more than a century, we have chosen naturality “to restore the link between human beings and nature through aromatic raw materials.” Nature and people are the core of our values giving purpose and meaning to our story.

Our expertise in naturality relies on three pillars: Naturalness, Production, and Responsible Sourcing.

With our expertise in **NATURALNESS & PURITY**, we guarantee that each product comes from a single botanical species, from defined chemotypes and identified geographical areas, and that there is no chemical modification during processing or any addition of natural or synthetic materials.

Through our **PRODUCTION** expertise and the know-how of our specialized team, we transform selective raw materials into essential oils, absolutes, resinoids, and floral waters that line up with the requirements of the aromatherapy, perfumery, and personal care industries.

Our third pillar is **RESPONSIBLE SOURCING** for the benefit of people, communities, and environmental protection. We promote sustainable practices that preserve biodiversity and wild at-risk raw materials, develop our expertise and know-how in plant breeding, farming and harvesting, and partner with local farmers and collectors in long-term relationships.

Be Organic

Driven by a need for authenticity, meaning and reconnection with nature and self-care, consumers are increasingly turning to natural and organic products.

At Albert Vieille, we strengthen and expand our sustainable approach by encouraging and collaborating with local farmers using responsible agricultural practices, and through the organic certification of our distillation units.

The European Organic agriculture certification guarantees:

- Climate and environment protection.
- Conservation of soil fertility.
- Preservation of biodiversity.
- Respect for natural cycles and animal welfare.
- Absence of use of chemical and synthetic products.
- Absence of GMO.
- Transparent labeling for consumers.

Be Fair For Life

we have chosen to have a positive and sustainable impact on our entire value chain, promoting health, safety and ethics in all our relationships, working to protect the environment and biodiversity, assessing and monitoring every step of the life cycle of our products.

We act responsibly by referring to the **FAIR FOR LIFE STANDARD**, a certification program based on a win-win principle. Fair For Life promotes fair trade in agriculture, manufacturing and trade through the implementation of good economic, social, and environmental practices.

This certification is based on 3 commitments:

- Respect for human rights and fair working conditions.
- Respect for the ecosystem, promotion of biodiversity, and sustainable agriculture practices.
- Respect and betterment of local impact.

Be Cosmos

As a consumer, one of the major criteria of choice is trust. This trust is built through transparency from the way supply chains are managed to the choice of natural ingredients that are easily identifiable.

At Albert Vieille, most of our essential oils, absolutes, and resinoids are COSMOS approved which guarantees their naturalness and supports their use in COSMOS certified cosmetic products.

This certification complies with the requirements of the COSMOS standard developed by recognized certification bodies - BDIH (Germany), COSMEBIO & ECOCERT (France), ICEA (Italy) and SOIL ASSOCIATION (UK) - to define common rules for organic and natural cosmetics at the international level.

Product list

Product	Origin	CAS TSCA	Organic	COSMOS approved	Fair For Life
Bergamot Essential oil pericarp of <i>Citrus bergamia</i>	Italy	8007-75-8			
Buchu Essential oil leaves of <i>Barosma betulina</i>	South Africa	68650-46-4
